

AVE MARIA SCHOOL (CBSE)

RAMANTHAPUR, HYDERABAD

(Managed by the Hyderabad Archdiocese Educational Society)

AMS/Circular

6th August 2025

Dear Parents

Greetings from Ave Maria School, Ramanthapur!

This notice is to inform you about the activity period (Monday to Friday 2.35pm to 3.30pm) in school, designed to enhance your child's learning experience. This period will provide opportunities for students to engage in various activities, e.g., hands-on learning, skill development, creative expression, etc.

What is the activity period in school?

An Overview

An "activity period" in school is a designated time slot, often within the school day, where students participate in various extracurricular activities, clubs, or structured learning experiences beyond the regular curriculum. These periods aim to enhance students' overall development by providing opportunities for exploration, skill-building, and social interaction.

Here's a more detailed explanation:

1. Purpose:

Activity periods are designed to complement the academic curriculum by offering a range of activities that cater to diverse student interests and promote holistic development.

2. Activities:

These periods can include a wide array of options such as **sports, arts and crafts, drama, music, clubs (like robotics, debate, games & sports or communication skills improvement), academic support sessions (like tutoring or slow learner' study groups)**, or even free time for students to pursue personal interests.

3. Benefits:

Activity periods offer numerous benefits, including:

- **Skill Development:** Students can develop new skills, explore their talents, and pursue their passions.

- **Social Interaction:** These periods provide opportunities for students to interact with peers, build relationships, and develop teamwork skills.
- **Reduced Stress:** Engaging in enjoyable activities can help reduce stress and improve overall well-being.
- **Holistic Development:** Activity periods contribute to a well-rounded education by addressing students' social, emotional, and physical needs alongside their academic learning.
- **Exploration and Discovery:** Students can explore different fields of interest and potentially discover new passions or talents.

4. Examples:

Some common examples of activities within an activity period include:

- **Sports and physical activities:** Basketball, Cricket, volleyball, karate, badminton & dance.
- **Arts and creative activities:** Painting, drawing, sculpting, drama, music.
- **Academic support and enrichment:** Tutoring, slow learner's study groups, math games, spell bee, elocutions, debates and essay writing, science experiments and reading clubs
- **Club activities:** Robotics club, debate club, and coding club.

5. Implementation:

Activity periods are often integrated into the school schedule, sometimes replacing a regular class period or offered as an extension of the school day.

6. Parental Involvement:

We encourage your active support in ensuring your child's participation in various activities. Please ensure they are prepared with the necessary materials and have a positive attitude towards learning.

We believe that this activity period will be a valuable addition to their learning journey. Should you have any questions, please do not hesitate to contact the school office. Thanking you.

With regards
